Release Notes Version 2.0.46 Hotfix

Bug Fixes:

- Dr First history buttons do not insert data into note - **fixed**
- Patient Chart Summary is being cut off - **fixed**
- Random unhandled exceptions when logging in, logging out, or just general use - **fixed**
- Next Pending Appointment Macro does not show date and time - **fixed**
- CCDA MRN# will now reflect the External systems chart number instead of internal chart # - change required for some interfaces
